Shubham Kumar Saini

Jaipur

Summary

I am an enthusiastic MERN Stack Developer with a solid foundation in C++. Skilled in building scalable web applications using MongoDB, Express.js, React.js, and Node.js. Strong in problem solving and optimizing performance with data structures and algorithms. Always eager to learn and collaborate on new technologies.

Technical Skills

Programming Languages: C, C++, JavaScript (ES6+)

Web Technologies: HTML5, CSS3

Frontend Frameworks: React.js, Tailwind CSS

Backend Technologies: Node.js, Express.js, REST API, JWT

Databases: MongoDB, Mongoose **Tools**: Git, GitHub, VS Code, Postman

Deployment: Netlify

Operating Systems: Linux, Windows

Projects

Food Delivery Application - MERN Stack View Code

August 2025

• Developed a full-stack food delivery platform with user authentication, restaurant listings, cart and order management, and delivery boy assignment. Implemented RESTful APIs with JWT authentication and optimized MongoDB schemas for scalability. Built a responsive React.js frontend with a seamless checkout flow and user-friendly interface.

Personal Portfolio - Built with ReactJS View Code Live Demo

September 2025

• Developed a modern, fully responsive portfolio using React.js and Tailwind CSS, featuring smooth animations and optimized performance across devices. It showcases my MERN stack and C++ skills through project case studies and LeetCode achievements, built with React hooks and a component-based architecture for scalability and maintainability.

A2Z Mechanical Service – Built with the ReactJS View Code Live Demo

October 2025

• A2Z Mechanical Service is a React.js-based website for electrical and home appliance repair services. It is built using React Hook Form for form validation, EmailJS for contact form integration, and Tailwind CSS for modern, responsive design. The website provides a smooth user experience with clean UI components and showcases your front-end development skills in building functional, user-friendly service platforms.

Internship

Full – Stack Web Development (MERN – Stack)

Jan 2025 - July 2025

Regex Software Services, Jaipur, Rajasthan

• Completed a Full-Stack Web Development internship focused on the MERN stack, where I gained hands-on experience in building dynamic web applications using MongoDB, Express.js, React.js, and Node.js. I developed and integrated RESTful APIs, implemented user authentication using JWT, and performed CRUD operations. The internship also enhanced my skills in version control, state management, and deploying applications on platforms like Vercel and Netlify and Hostinger.

Education

RBSE XII

Master of Computer Applications (MCA)

2024 - Present

University of Technology, Jaipur, Rajasthan

Bachelor of Science (Mathematics)

2019 - 2022

Pandit Deendayal Upadhyaya Shekhawati University, Sikar, Rajasthan

Shri Krishna Sr. Sec. School Kanwat, Sikar, Rajasthan

2015 - 2016

2017 - 2018

RBSE X

Shri Krishna Sr. Sec. School Kanwat, Sikar, Rajasthan
